On the western front in the region of the River Narayana and on the heights on the right bank of the River Zlota Lipsa, stubborn fighting is continuing. The enemy initiated counter attacks which were repelled. He left in our hands 1,600 of the rank and file. With the Austrian prisoners were also Turks and Germans.

On the River Hystreia in the region of Bogorodchan, our patrols removed two field batteries and defeated the enemy advance guards, taking also a number of prisoners. The total number of prisoners taken by this section of General Lebedev's army during the battle from September 19 to 28 inclusive, in the Carpathians on the front extending to the Rumanian frontier, is 12 officers and 2,300 of the rank and file. The war booty captured during the same period amounts to four cannons, 13 machine guns, two mine throwers, one trench mortar, 75 shells and hand grenades, 160 cases of machine gun belts and several thousand rifles.

ITALIANS DRIVE OFF ATTACKS ON OUTPOSTS.

Rome, via London, Oct. 2 (7:50 p. m.).—The official communication issued today follows:

"In the Ledro valley (Trentino) Infantry skirmishes took place, during which our advance posts drove off the enemy with loss. In the Astico valley enemy artillery concentrated its fire on the railway near Nehe, without interrupting traffic."

BAPAUKE ONLY TWO MILES BEYOND LINES OF BRITISH.

With the British Army in France, Oct. 2, 11 p. m. (via London, Oct. 3, 2:50 a. m.).—Bapaume is now only two miles beyond the British advance line. Soldiers charging in yesterday's attack speak of their amazement at finding themselves crossing a field of sugar beets. They had at last fought their way out of the desert zone, created by the shell fire, into a region where peasants have grown their crops, and evacuated their homes only when the battle front drew nearer.

Looking toward Bapaume behind the Le Sars-rich farming country, with the villages largely intact, it appears almost as normal as that ten miles back of the old trench lines on the British side. So open has the fighting become now in the center that cavalry patrols have been used. Though some of the riders had their horses shot from under them, and some horses foundered in the abandoned trenches, others carried their scouting nearly a mile beyond the infantry advanced line, and brought back valuable information. Most of those who lost their horses managed to return on foot with their reports, others brought in prisoners, including an officer tethered among the German outposts in the shell craters, who was astounded at the apparition of men on horseback looting out of the night on the western front, where the cavalry had had so little to do.

BUCHAREST AND BERLIN CONFIRM ANNOUNCEMENT.

London, Oct. 3 (3:05 a. m.).—Brief announcements from both Bucharest and Berlin that the Rumanians had crossed the Danube south of their capital and invaded Bulgaria, was the only news of this important theater to reach here tonight.

The morning newspapers, however, hail the maneuver as a dramatic counterstroke against the Bulgarians for the defeat the Rumanians suffered at Hermannstadt.

CHILLIE CHARLIE SAYS WILSON WILL NOT DO

BY MORNING JOURNAL SPECIAL LEADER WIRE

Pasadena, Cal., Oct. 2.—Charles W. Fairbanks, republican vice presidential nominee, criticized the democratic administration as "unsound" and "inefficient" today in a late luncheon address at the Maryland hotel, and attacked the "false prospect" of the last four years under democratic government.

"One of the first of the worst things which President Wilson did after his election," Mr. Fairbanks said, "was to commence breaking the pledges of the party which had elected him to office. His tariff propaganda and his personal control over congress, make him responsible for the conditions which have existed during the administration."

STURBORN FIGHTING IS REPORTED BY PETROGRAD.

Petrograd, Oct. 2.—Today's official announcement says:

"On the western front in the region of the River Narayana and on the heights on the right bank of the River Zlota Lipsa, stubborn fighting is continuing. LOOT AND MURDER FOLLOW TRAIL OF BANDIT CHIEFS

Refugee From Cusiuhirachic Section Tells of Terror Created in Mexican Town by Villa After Battle.

BY MORNING JOURNAL SPECIAL LEADER WIRE

El Paso, Oct. 2.—Following the battle with the Carranzistas under General Matias Ramos at Cusiuhirachic on September 26, Francisco Villa, Jose Ynez Salazar and their joint command, left the mining town of Cusi after looting it of all food supplies and provisions, killing several civilians and after they had impressed all able-bodied men into their command, a resident of the Cusiuhirachic mining district who arrived here by way of Chihuahua City, reported today.

The looting followed the retirement of General Ramos and his command after the Carranza commander had been wounded. Many women were assaulted by the Villistas, the man from Cusi reported, and a half day of terror followed the retirement of the Carranza forces, they stated.

This refugee from the mining district brought the first eye-witness report of the battle between the Carranza forces and the Villistas at Cusiuhirachic and at La Bufa, one mile south of the mining camp, Villa and Salazar with 800 men were encamped at Coyachi, eight miles north of Cusiuhirachic. On Monday night, September 25, he reported, Villa sent a courier into Cusi to warn the people there that he would attack at 8:30 on the following morning (Tuesday). The courier reached the camp at 4:30 and Colonel Ramon Borquez, in command of the Carranza garrison, made arrangements to evacuate the camp.

Garrison Evacuates.

The Carranza garrison marched out at 6 o'clock Tuesday morning, two hours in advance of the Villista attack. A short distance northeast of Cusi the command of Colonel Borquez saw a force advancing from the vicinity of Santa Ysabel. Thinking that these were Villistas, he ordered an attack, the mining man stated, and a sharp skirmish followed. Colonel Borquez being outnumbered, ordered "retreat" when it was discovered that the opposing command was that of General Ramos going to attack Villa at Cusi.

The attack on the Villistas, who had occupied Cusiuhirachic started about noon, the refugee reported, and continued for several hours. The Villistas withdrew to La Bufa, a hill one mile south of the camp, where the fighting was resumed and continued until dark, general Ramos was wounded in the left knee and his chief of staff, Colonel Pedro Cardenas, was wounded in the right shoulder. The Villistas, having taken a strong position on the elevation of the hill, the fight was abandoned and the Carranzistas retired to Santa Ysabel.

The looting of Cusiuhirachic, the impressing of civilians in the Villa ranks and the assaulting of women followed next morning, the man stated.

NEW YORK FACES SHORTAGE IN ITS SUPPLY OF MILK

Controversy Between Dairy-men's League and Individual Distributors Has Reached Critical Stage.

BY MORNING JOURNAL SPECIAL LEADER WIRE

New York, Oct. 2.—In the face of a serious milk shortage in this city, because of the controversy between the dairyman's league and individual distributors, Health Commissioner Emerson declared emphatically late today there would be no relaxation in the rigid inspection of the supply by his department. He asserted he was more interested in quality of milk than in quantity, and that the standard could not be lowered, no matter how acute the shortage became.

Dr. Emerson's announcement was made at a conference attended by John J. Dillon, state commissioner of foods and markets, who has been empowered by members of the league to make contracts for its members and by the leading milk distributors of the city. Neither side had asked Dr. Emerson for a temporary lowering of the milk standard to meet the present emergency. Milk brought to the city from unusual sources will be subjected to a particularly close inspection, he stated.

Dr. Emerson declared reports received from inspectors for his department indicated that about 75 per cent of the normal supply was received in the city today. Mr. Dillon asserted that the shortage would become more acute as the week advanced.

ATTORNEY GENERAL WILL MAKE AN INVESTIGATION

Albany, N. Y., Oct. 2.—A sweeping investigation of the milk in the state, with a view to applying a remedy, was ordered tonight by Attorney General Woodbury. He designated Deputy Attorney General Merton E. Lewis, who was counsel to the Thompson Public Service commission, investigating committee, to conduct the inquiry, and announced that application for the appointment of a non-partisan referee to take testimony "will be made to the courts at once."

The investigation was authorized after the receipt of complaints by both milk dealers and producing farmers, alleging that conspiracies in restraint of the milk trade existed.

Funston on Inspection.

Corpus Christi, Tex., Oct. 2.—Major Gen. Frederick Funston, accompanied by Brig. Gen. James Parker, commanding the Brownsville district, were here today to inspect the camps of the Second and Third Texas infantry. General Funston will return to his headquarters at San Antonio from here, having completed a tour of inspection of all the troops on border duty in the lower Rio Grande valley. He indicated that he was well satisfied with the conditions.

KILLS OR WOUNDS 21 GERMANS; ONE TAKEN PRISONER

Corporal in an Eastern Ontario Battalion, Fighting in France, Performs a Daring Feat Single-handed.

BY MORNING JOURNAL SPECIAL LEADER WIRE

OTAWA, Ont., Oct. 2.—A tale of an unnamed corporal in an eastern Ontario battalion of the foreign forces in France, who single-handed, charged a party of twenty-two Germans advancing to an attack and killed or wounded all of them except one, whom he took prisoner, is related by the official Canadian "eye-witness."

"As a result of further severe fighting, the Canadians have captured several important positions, and have advanced their own line on a frontage of nearly two miles, to a maximum depth of 300 yards," the dispatch says.

"The Germans have fought hard and their resistance has been formidable. To minimize this fact would be to minimize the gallantry and persistence with which the Canadians have attacked. We have, in this fighting, advanced in close co-operation, and sympathy with the British troops on either flank. Despite the enemy's resistance, we have, except for temporary and local setbacks, secured in succession, all of our objectives and by every account received, we have inflicted severe losses upon the Germans."

"Our artillery support has been magnificent, and by the sheer weight of metal which the guns have hurled upon the Germans, they have made it humanly impossible for the infantry to come into close contact with the enemy. When this has occurred, there has never been any question of the result. Time and again, our bayonet men have rushed an enemy trench and have killed or captured the entire garrison."

"In the course of all this desperate fighting, there have been innumerable instances of the most courageous and devoted actions, impossible at present to detail."

"The case of a corporal of an eastern Ontario battalion is, however, one of the most extraordinary ever recorded. The battalion had successfully captured a line of German trenches, when a party of the enemy, consisting of two officers and about twenty men, began a counter-attack."

"The corporal advanced alone against the whole party, emptied his revolver, picked up first and then another German rifle, each of which he emptied, accounting for the two officers and sixteen of the men. While he was shooting, one of the officers attacked him with a bayonet and pierced him in the leg below the knee, but the corporal shot him dead. The rest of the enemy attempted to escape. The corporal shot four of them and made the fifth a prisoner. Although twice wounded, he remained in the trenches until his battalion was relieved."

KANSAS CROWDS COLD TO PRO CANDIDATES

BY MORNING JOURNAL SPECIAL LEADER WIRE

Kansas City, Mo., Oct. 2.—The prohibition national campaigner closed their second day of speaking to small Kansas crowds today and tonight came across the Kaw for a meeting here, where interest in the coming statewide dry and wet fight is keen. Striking out northwest of here tomorrow, the speakers will visit several Kansas and Missouri and Nebraska cities.

Both J. Frank Hanly and Ira Landrith, candidates for president and vice president, respectively, pleaded with Kansas people at every city again today to get actively into the national fight, but little enthusiasm was manifested.

Kansas, in the opinion of some of the campaigners, has had prohibition on long to arouse much interest in the nationwide fight.

Hanly declared that from Colonel Roosevelt's speech in Battle Creek, on Saturday night, he seemed to be "laboring under the impression that he was nominated at Chicago."

"Roosevelt's endorsement of Hughes is not enough," he said at Topeka. "His ability as an underwriter of presidents is too well known to the American people; they do not forget that he underwrote William H. Taft."

PORTO RICO SUGAR STATISTICS COMPILED

BY MORNING JOURNAL SPECIAL LEADER WIRE

San Juan, Porto Rico, Oct. 2.—Complete statistics of the sugar production in the island of Porto Rico for the season recently closed have been compiled by the insular treasury department. They show that the island's sugar output was 453,590 tons, the greatest on record. This is an increase of 137,000 tons over the production of 1915, when the output was 316,590 tons.

Sugar men say this year's crop, practically all of which has been sold, has brought an average of 5 1/2 cents per pound or better, making the crop more than \$53,000,000.

FATIMA

A Sensible Cigarette

Such men seek smoke-comfort

WHEN YOU stop to realize the number of sound, conservative men who have changed over to Fatimas in the last six months, it surely indicates that Fatimas must offer something no other cigarette can offer.

Perhaps you haven't thought of it this way:

Do you know any other cigarette that is always cool and comfortable? Do you know any other cigarette beside Fatimas that leaves a man feeling fine and "fit" even after a long-smoking day?

It is these qualities that make Fatimas truly sensible.
